

# Become a Village Supporter

Three ways to contribute to transformative creation spaces for BIPOC artists.

1

## SPARK (\$50 - \$250)

This small piece of fire flying out from a burning object has the potential to set in motion a new pathway for the next generation of artists. Spark supporters initiate this potential.

2

## FLAME (\$251- \$500)

The right conditions must be created for a flame to ignite: heat, a fuel source and a lot of oxygen. Flame supporters help us to create opportunities to ignite collaborative experiences between artists and creators.

3

## WICK (\$1,000)

Liquid is drawn by capillary action through this strip, sustaining fire in a lamp or a candle. Wick supporters help us to empower strong creative communities of practice and purpose around art and ancestry.
